PROFILE SUMMARY

Final-year Electronics and Communication Engineering student with a strong foundation in Core Java, Object-Oriented Programming, Data Structures, Spring Boot, REST APIs, and MySQL. Experienced in developing backend applications using Java and Spring Boot, designing RESTful APIs, and integrating applications with relational databases. Passionate about backend development and building efficient, scalable software solutions.

EDUCATION

BE in Electronics and Communication Engineering 2023-2027 - (CGPA - 8.13)

Bannari Amman Institute of Technology - Sathyamangalam

Higher Secondary Education (12th Standard) Completed – 2023 - (Percentage of 89%)

SVV Matric Higher Secondary School - Gobichettipalayam

TECHNICAL SKILLS

● Java ● Data Structures ● MySQL ● SpringBoot

PROJECTS

Sponsored Program Portal

Tech Skills : Java | Spring Boot | REST API | MySQL

- Developed a Spring Boot-based REST API for managing sponsored programs.
- Implemented CRUD operations allowing administrators to add, update, approve, and delete program records.
- Developed APIs for users to view available programs and submit applications.
- Integrated the application with MySQL for persistent data storage.
- Followed a layered backend architecture using Controller, Service, and Repository components.

Job Search and Management System

Tech Skills: Java, Spring Boot, REST API, MySQL, Spring Data JPA

- Developed a web-based job search and management system that allows users to search and filter available job opportunities.
 - Implemented functionality for users to view job details and submit applications through RESTful APIs.
 - Developed administrator features to add, update, delete, and manage job postings.
 - Integrated MySQL with Spring Boot to store and manage job and application data.
 - Followed a layered architecture using Controller, Service, Repository, and Entity components.
-

ACHIEVEMENTS

- Finalist in Hacksagon, demonstrating strong coding and innovation abilities in a competitive environment.
